Cyber Polygon 2021 Leaders of global organisations and state representatives met at the online conference to analyse the current trends and risks posed by increased interconnectivity. One of the talking points was the resilience of digital ecosystems and the promotion of a safe digital future by means of mutual efforts, justice, and equality.

Cyber Polygon | World Economic Forum

In order to prevent a catastrophe, it is necessary to invest in the protection of each individual company, increase the level of cyber literacy and develop competencies of technical specialists. That is the reasoning behind the Cyber Polygon exercise, which has already proven itself effective.
