Japanese is an agglutinative, synthetic, mora-timed language with simple phonotactics, a pure vowel system, phonemic vowel and consonant length, and a lexically significant pitch-accent. Word order is normally subject-object-verb with particles marking the grammatical function of words, and sentence structure is topic-comment. Its phrases are exclusively head-final and compound sentences ...

John also presents certain contrastive sub-themes that reinforce his main theme. He uses dualism (life and death, light and darkness, love and hate, from above and from below), to convey vital information about the person and work of Christ and the need to believe in Him (e.g. 1:4-5, 12, 13; 3:16-21; 12:44-46; 15:17-20).

In the contemporary child development literature, the phrase at-risk children usually implies those from low-income families. For the early part of the 20th century, children in poverty were largely ignored by scientists, and theories of child development were based on work with middle-class youth (Graham, 1992). Beginning in the 1950s, however, there was a growing recognition of the unique ...
