New Delhi: After much speculation about the third wave's peak in India, a new study has revealed that the covid-19 cases in India will peak on January 23 with a predicted number of 7.2 lakh cases per day. However, due to changes in the testing guidelines by the ICMR, the peak is deviating from its predicted path and the actual peak may not have more than 4 lakh cases per day.

## Third Wave Of Covid-19 In India May Peak On January 23 IIT ...

This is a list of distributed computing and grid computing projects. For each project, donors volunteer computing time from personal computers to a specific cause. The donated computing power comes typically from CPUs and GPUs in personal computers or video game consoles. Each project seeks to solve a problem which is difficult or infeasible to tackle using other methods.

In mathematics, the Riemann hypothesis is a conjecture that the Riemann zeta function has its zeros only at the negative even integers and complex numbers with real part  $1/2$ . Many consider it to be the most important unsolved problem in pure mathematics. It is of great interest in number theory because it implies results about the distribution of prime numbers.
