produced with respect for the classic design and character of the car. Despite the classic appearance, the ignition contains the most modern electronics.

### **123ignition - 123ignition**

Any engine with a 12volt point ignition can be converted to electronic ignition using a Ford gray remote-mount TFI module. -It is both cheap and easy. Point ignition is simple. When the points open the current is interrupted on the primary side of the coil. The magnetic field collapses which induces a high voltage in
