Answers to Self-Review Exercises | Introduction to Problem ...

I have to run out, so don't have time to code up something, but here is the basic approach: 1) If the number is > 25, divide by 25. The integer result is the number of quarters. 2) If the remainder is > 10, divide by 10. The integer result is the number of dimes. 3) If the remainder is > 5, divide by 5. The integer result is the number of nickels.
