In addition to the original three domains, a responsibility domain has been added. The PEDI-CAT has been validated for clients birth through twenty years old.

Pediatric Evaluation of Disability Inventory ...

The Wong-Baker Faces Pain Rating Scale is a pain scale that was developed by Donna Wong and Connie Baker. The scale shows a series of faces ranging from a happy face at 0, or "no hurt", to a crying face at 10, which represents "hurts like the worst pain imaginable". Based on the faces and written descriptions, the patient chooses the face that best describes their level of pain.

Wong-Baker Faces Pain Rating Scale - Wikipedia

Paediatrics (also spelled pediatrics or pædiatrics) is the branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends people seek pediatric care through the age of 21. In the United Kingdom, paediatrics covers patients until age 18. Worldwide age limits of pediatrics have been trending up year over year.
