The streets were paved with wood and were accompanied by a wooden water-pipe system, a Byzantine invention to protect against fire. The Byzantine style (famous for large domes) and the European Romanesque style influenced the architecture of Novgorod. A number of rich families commissioned churches and monasteries in the city.

Novgorod Republic - Wikipedia

The use of wood as a raw material in the medieval world for a wide variety of functional and artistic purposes was almost as widespread as living nature itself. The material was used for the construction of buildings and ships, furniture, musical instruments, and even the tools necessary to complete the work.
